FULLY AUTOMATIC
WATER TANK CONTROLLER

FULLY AUTOMATIC
WATER TANK CONTROLLER

Our Fully Automatic Water Tank Controller seamlessly **manages water levels** by **automatically operating** the pump on both **3-phase** and **single-phase** currents, **conserving water** and **saving energy** with minimal effort.

01

AUTOMATIC PUMP CONTROL

Activates the water pump when the tank level is low and deactivates it when full.

02

WATER CONSERVATION

Prevents overflow and minimizes water wastage by maintaining the desired water level.

03

ENERGY EFFICIENCY

Reduces energy consumption by ensuring the pump runs only when necessary.

04

USER-FRIENDLY INTERFACE

Simple setup and intuitive controls for easy operation.

05

RELIABLE PERFORMANCE

Durable components designed for long-term use and dependable performance.

06

VERSATILE APPLICATION

Suitable for various tank sizes and types, including both residential and commercial systems.

SMART HOME

SMART SWITCH

Effortlessly control your home with our Smart Touch Switch, designed for seamless IoT integration and instant response. Experience the **future of smart living** with just a touch.

GATE
AUTOMATION

Gate automation improves security and convenience by allowing remote control and seamless access to your property. With integrated sensors and safety features, you can enjoy peace of mind while ensuring effortless entry and exit.

SMART CURTAIN

Smart curtains provide effortless control over light and privacy, allowing you to open and close them with a touch or voice command. With scheduling features, they help optimize room temperature and ambiance, enhancing energy efficiency and comfort.

SMART DOOR
LOCK

Smart door locks provide keyless entry and remote access management, enhancing security and convenience for your home.
