PROBLEMS

- Water overflow due to manual motor control
- Motor dry-run leading to damage and repair costs
- Unnecessary electricity usage and higher bills
- No proper indication or monitoring of motor status
- Dependency on people to switch motors on/off daily
- Systems that don't support all motor types
- Lack of reliability in traditional water control methods

SOLUTIONS

Automatically turns the motor ON/OFF based on tank and sump levels

Prevents both overflow and dry-run conditions

Buzzer indication alerts users on motor status changes

Manual override available for emergency use

Compatible with 1-phase, 2-phase, direct capacitor, starter, and two-wire motors

Functions without internet, app, or Wi-Fi

Quick to install, easy to maintain, and built for long-term use

FEATURES & CAPABILITIES

Auto Motor ON/OFF: Controls motor based on tank/sump levels.

Dry Run Protection: Prevents motor damage when sump is empty.

Overflow Cutoff: Stops motor automatically when tank is full.

Buzzer Indication: Sound alert for motor ON/OFF.

Manual Operation Mode: Switch to manual in emergencies.

Works Without Internet: No Wi-Fi or app required.

Supports All Motor Types: 1-phase, 2-phase, capacitor, starter, two-wire.

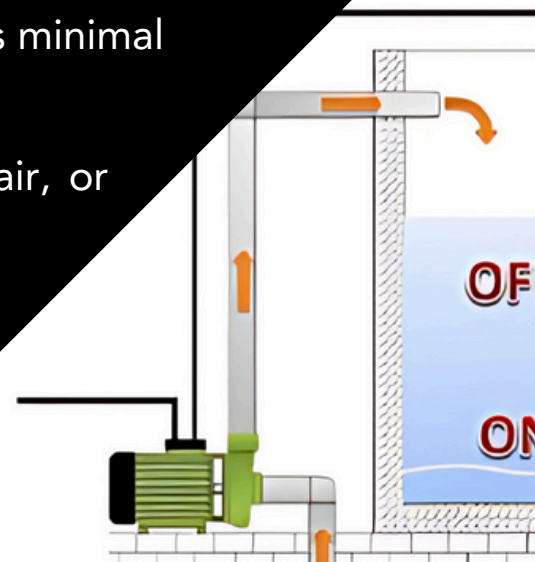

Compact & Durable Design: Fits any panel, long-lasting build.

Custom Installation: Suitable for homes, buildings, industries.

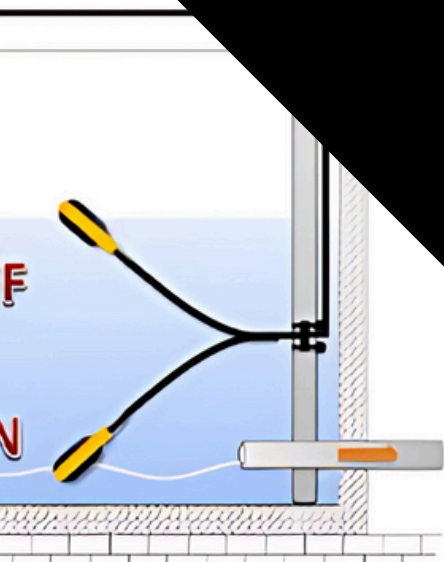

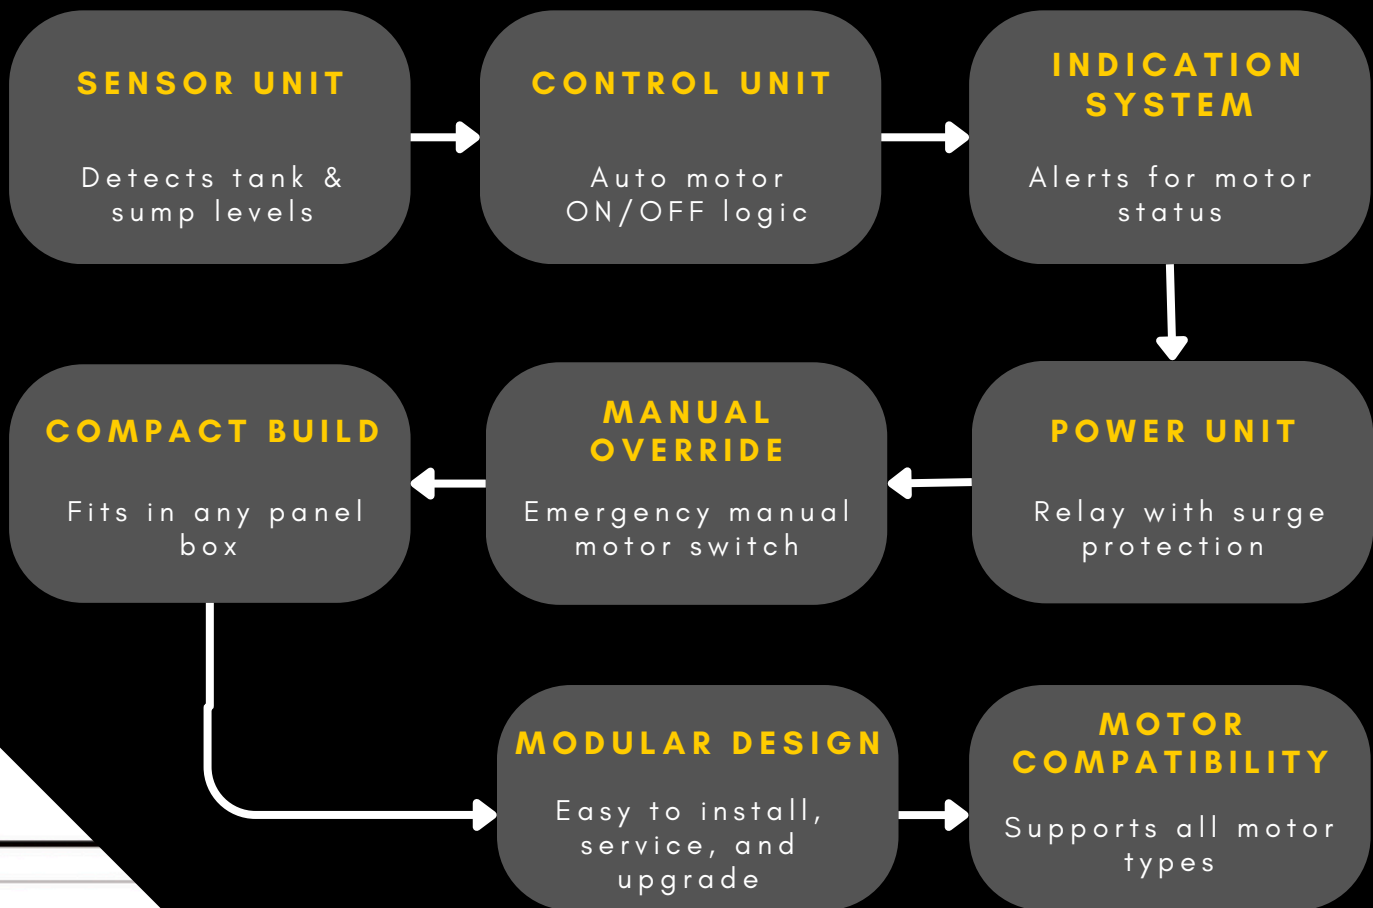

Quick Installation: Simple setup and wiring process.

Low Power Consumption: Efficient circuitry uses minimal electricity.

Service-Friendly Design: Easy to maintain, repair, or upgrade.

SYSTEM ARCHITECTURE

BENEFITS & OUR CLIENT

Zero Wastage – Auto cutoff stops overflow, saving water.

Motor Protection – Prevents dry-run and motor burnout.

Power Savings – Reduces energy use and running costs.

Fully Automated – No manual switch needed—set and forget.

Quick ROI – System recovers cost through monthly savings.

Indian System Ready – Built for Indian water tank setups.

Real-Time Alerts – Receive updates via SMS, app, or display.

Reliable & Rugged – Built to last in home and industrial environments.

Easy to Use – Simple operation for any user.

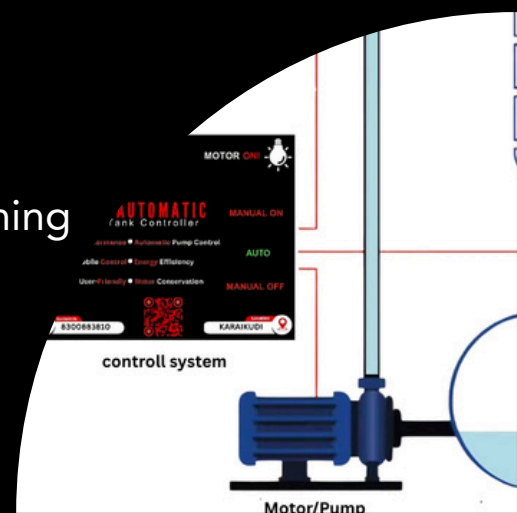

Advanced Compatibility – Supports 1-phase, 2-phase, direct capacitor & starter motors, and two-wire types.

Trusted Across Tamil Nadu

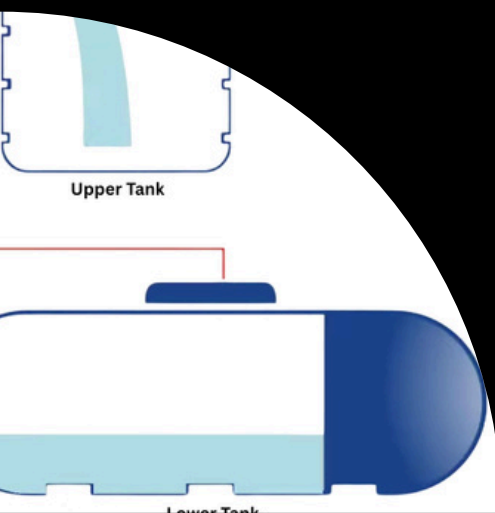

80+ Installations successfully completed and running across residential and commercial properties.
