PROBLEMS

- Businesses still rely on Excel sheets or handwritten bills

- Missed customer payments and overdue invoices

- Manual tax calculations lead to errors

- No real-time visibility into cash flow and profit/loss

- Separate systems for billing and accounting – no integration

- No reminder alerts for due collections

- Difficult to track outstanding balances or customer ledger

- Existing software is either too complex or too expensive

SOLUTIONS

- All-in-one web app for invoicing, billing & accounting

- Instantly generate GST-compliant invoices (PDF/Print)

- Real-time tracking of customer payments and dues

- Automatic tax & profit/loss calculations

- Integrated customer ledger and payment history

- Easily manage purchases and daily expenses

- Dashboard with live summary: sales, collection, profit

- Works seamlessly on mobile, tablet, and desktop
